

SCF

CONTAINER
SOLUTIONS

**20FT
DANGEROUS
GOODS
SINGLE SIDE DOOR**

For easier access to your dangerous goods, this unit is a solid option. SCF's 20ft Dangerous Goods Single Side Door Container has all the same purpose-designed features as the rest of our dangerous goods range. It's solid, secure, well-ventilated, and equipped with an emergency escape.

Details

If it's flexibility and versatility you're looking for, the 20ft Dangerous Goods Single Side Door Container is a great fit. This container has full single side door access which means clearer access to your dangerous goods inside.

Over the years, we've finessed our designs to set a new bar for dangerous goods storage. Every detail has been considered. From the top and bottom vents, right down to the galvanised steel floor – which is banded for spill containment, and has raised crossmembers for easy clean-up.

With an emergency exit, safety drain valve, and more, this container is the ultimate way to keep hazardous substances out of your team's way.

Key Features

- One side fully opens for easy access
- Safe and secure dangerous goods storage
- Well-ventilated for proper air exchange
- Comes with MSDS Folder for the safe storage of every chemical inside
- Banded flooring designed for easy clean-up and containment of spills
- Includes 316L safety drain valve

Options

- Custom shelving configurations available
- Add extra lockable cages and cabinets
