

CONTAINER
SOLUTIONS

20FT
SITE
OFFICE

Every well-run project needs a dedicated space to keep things humming. Our 20ft Site Offices are the perfect solution. Well-insulated, temperature-controlled, and rigged up with lighting and power, they have all the makings of a modern office space. Work with us to customise your container into the site office of your team's dreams.

Details

SCF's shipping container offices are safe, secure, compliant, and comfortable. They're built from hard-wearing and high-quality materials, complete with insulation and split system air conditioning. So wherever your office is based, you can always keep a cool head.

Every team is different, and we'll work with you to customise the right solution for yours. Choose a single office or a team set-up. Add a meeting room, and change the internal layout. Whatever you need to create your team's ultimate workspace, we can get it done to the ultimate standard.

Key Features

- Secure lockbox and steel PA doors
- Rockwool insulation
- Interior and exterior lighting
- Windows with flyscreens and mesh for added security
- Smoke detector with back-up battery
- Split system reverse cycle air conditioning externally recessed

Options

- Make your 20ft Site Office your own with these tailored options...
- Opt for a single office
- Configure a team setup
- Add a meeting room
- Kit it out with office furniture
- Add a 10kPa Hoarding Platform for extra overhead protection
- Talk to our team about any other modification needs.
