# 20FT COOL ROOM

SCF's 20ft Cool Room shipping container delivers superior temperature control for short and long-term storage. Intelligent insulation design provides optimum refrigeration properties to reduce machinery run time, electricity use and costs.

Details

SCF's 20ft Cool Room container provides superior onsite temperature controlled storage for temperature sensitive goods. Utilising the proven technology in our larger refrigerated containers, the smaller unit provides greater flexibility for limited space, short-term events or those with smaller storage needs.

The Cool Rooms come with F-Tracks to secure freight whilst in transit. This is complimented by internal scuff plates and flush mounted components to reduce damage to the inside of the container. Internal luminescent exit safety stickers ensure the safety of your staff.

The unit can also be used to transport or store up to 16 pallets with the addition of vertical load bars. Available for hire or sale, these cool rooms are a flexible solution for keeping your goods at temperature.

Built with superior temperature control and insulation, temperature is efficiently maintained with reduced machinery run time, reducing electricity use and costs.

Key Features

- Custom SCF insulation design for premium thermal performance
- 2 pallet wide
- Vertical Sliding Load Bars - to double stack pallets
- Emergency siren
- Internal release emergency door
- Ease of access entry door
- Internal LED lights

Options

- Airflow or flat floor
- Ramp
